

Quality Policy Statement

Cook Ground Investigation Limited is committed to the provision of geo-environmental drilling services in a manner that ensures a safe and healthy workplace for our employees and maintains a high quality of service for our clients. Our work is undertaken in accordance with industry best practise and guidance, including BS EN / ISO standards.

Cook Ground Investigation Limited is committed to:

- integrating the consideration of quality into all of our decision making and activities;
- promote awareness of our quality policy, standards and values among our employees;
- train, educate and inform our employees about quality issues that may affect their work and promoting the culture of continual quality improvements and the philosophy of getting things "right first time";
- where required by legislation or by clients, develop and maintain appropriate quality procedures;
- communicating our quality commitment to clients, customers and the public and encourage them to support it; and
- continually improve our quality performance by listening to and acting on stakeholder feedback, periodically reviewing our quality policy in light of our current and planned future activities.

This Policy shall:

- apply to all of Cook Ground Investigation's activities including office and site based work;
- be communicated to and complied with, by all staff working for or on behalf of the company and be made available to all clients, contractors and other stakeholders including the public; and
- be periodically reviewed to ensure its continued focus, relevance and fulfilment.
